

*Info 2015\_01*

Good morning dear clients, partners, friends and public; good morning 2015!

For the New Year, we wish you the best of luck, good health and every success.

Our motto for 2015 is: **"The greatest enemy of quality is haste."** Henry Ford

True to this spirit, from now on we are resolved to dedicate more time to your concerns, to intensify our presence and to let you know when and where we can personally meet – for example at business fairs, on training courses or at association events. Just follow the **meet us on ...** logo which is regularly published on our [News & Events](#) page.

If you wish to know in advance what [A&H](#) is up to and planning for 2015, you can consult our continuously updated calendar at the link [News & Events/Dates](#).

We will also extend our [Equipment](#) page, where you will be able to find two new links called [Products/HESLO](#) for everything regarding helicopter external cargo transport and [Products/HEC](#) dedicated to all types of equipment for the transport, rescue and safety of persons by and inside helicopters.

To achieve better readability, we have decided to abolish the charts for the presentation of our products and to present them in a new order. Please remember that we only show a selection of products on our website, so for any other wishes, further information or quotations please contact us directly without any commitment.

In order to slim down the texts and avoid too much info, we have introduced 3 new link buttons: the green link [more ...](#) will lead you to more information (just as it is doing now), the orange link [INFO](#) provides legal information (excerpts of laws and regulations), while the blue link [INFO](#) gives access to comments and further information issued by [A&H](#).

[A&H](#) will start the New Year with its tried and tested team. Georg Rüttimann (GR) is your contact for all that concerns production and service ([A&H SER](#)), including the testing, maintenance, repair and overhaul (MRO) of all [A&H EQU](#) products. Our logistician Remo Betschart (RB) is responsible for the receipt of enquiries and

orders, their processing and invoicing and for any questions regarding this field. Firm management, new client acquisition, product development ([A&H ENG](#)) and direction of production organization, in accordance with [EASA Part 21 G \(CH.21.G.0022\)](#), lie in the safe hands of Enrico Ragoni (for further info check link [Team](#)).

As usual, you can call us at ++41 +41420 49 64 or mail to [office@work.com](mailto:office@work.com).

Speaking on our own behalf:

On Friday, 27th of March 2015, we are going to invite our clients to our premises in Immensee. E-mail invitations will follow.

We wish you a successful start to the New Year.

Many thanks!

**Your Team AirWork**
