Eine kurze Vorstellung von Enrico Ragoni, CEO AirWork & Heliseilerei GmbH (A&H)

Enrico ist Quereinsteiger in der Textilindustrie. Aus der Forstwirtschaft kommend, arbeitet er seit 1983 für und in der Helikopterindustrie in verschiedenen Funktionen.

1983 bis 1988 war Logging das beherrschende Thema.

1993 wechselte er in die Suva und war dort mitverantwortlicher Redaktor für die technische Grundlagenarbeit „Lastaufnahmemittel für Helikopter“.

Als zertifizierter Sicherheitsfachmann gründete Enrico 1999 seine Firma AirWork Ragoni Services (später, 2007 in AirWork & Heliseilerei GmbH umgewandelt).

Seit 17 Jahren entwickelt, baut und zertifiziert Enrico mit seiner Firma Produkte ausschliesslich für Helicopter External Sling Operation und Air Rescue Operation sowie Personal Protective Equipment against falls from a height.

Ebenso lang ist die Firma Geo Glestein in Bremen einer der wichtigsten Technologie-Partner für spezifisch entwickelte Seile.

Enrico ist verheiratet, hat 2 erwachsene Töchter und wohnt in Luzern.

Wir sind ihr Partner. Mit Sicherheit.

2016, May

A short introduction of Enrico Ragoni, CEO AirWork & Heliseilerei GmbH (AH)

Enrico is a lateral entrant to the textile industries: after vocational training in forestry, he has worked in the helicopter industry since 1983, covering different positions.

From 1983 to 1988 he mainly dealt with the theoretical and practical aspects of logging operations.

In 1993 he began working as a person in charge for Suva where he was actively involved in the editing of a technical guide for "Load lifting devices for helicopters".

As a certified expert in safety, in 1999 Enrico founded his first company, AirWork Ragoni Services (converted into AirWork & Heliseilerei GmbH in 2007).

For 17 years, Enrico and his company have successfully developed, manufactured and certified products explicitly designed for helicopter external sling operations and air rescue as well as personal protective equipment against falls from a height.

Through all these years, Geo Gleistein in Bremen has been one of his most important high technology partners for specifically designed and customized ropes.

Enrico is married with 2 grown-up daughters and lives in Lucerne.

We are your partner. In safety!
